Transference/Countertransference Dilemmas in the Treatment of Patients with Character Pathology

Mark J Goldblatt, MD

Jan A. Seriff, Psy.D.

We're looking forward to meeting you and beginning our ten-week course on Transference/Countertransference Dilemmas in the Treatment of Patients with Character Pathology. We will explore – through a series of clinically oriented papers and our own clinical material – some common transference and countertransference dilemmas that arise in the work with patients suffering from Trauma, Schizoid Character, Borderline Personality Disorder, and Narcissistic Pathology. We hope this course will dovetail with Elsa Ronningstam's course on Borderline and Narcissistic Character Pathology, allowing us an opportunity to delve more deeply into the clinical manifestations of these "character- types" [Freud, 1916] and some of the technical challenges in our work with these patients.

Mark Goldblatt will be teaching weeks 1 through 7. Jan Seriff will teach weeks 8, 9, and 10.

Week I: March 22, 2018 Countertransference

Freud S. (1905/1901). *Fragment of an Analysis of a Case of Hysteria*, Vol VII, pp 116-120. [PEP Web Link](#)
