

Thank you for your interest in a referral to a psychoanalyst or psychoanalytic therapist member of BPSI. It will be helpful to us if you could respond to this brief questionnaire.

- Please fax the completed form to Lauren Lukason at 857-255-3253 (secure fax number) or you may mail it to:  
 Boston Psychoanalytic Society and Institute  
 ATTN: Lauren Lukason  
 141 Herrick Road  
 Newton Centre, MA 02159
- A representative of the BPSI referral service will be in touch within seven business days.  
 If we are not able to provide you with a referral to a clinician in response to your request,  
 we will recommend that you seek a referral from your primary care physician or local mental health center.

Please remember that our referral service does not itself undertake any care or provide any treatment, nor does it provide referrals for crisis intervention or emergency treatment.

***If you have an urgent need, please contact your physician or go to your local emergency room.***

Fees and other treatment arrangements are made directly with the therapist providing the service. The sole role of BPSI's referral service is to provide individuals seeking care with access to licensed clinicians who are members of BPSI.

REFERRAL SERVICE INFORMATION FORM	
Who are you contacting us for?	Myself
	A family member
	Someone else
If someone has suggested that you contact us, tell us who?	
Who is this referral for?	An adult
	A child
	An adolescent
Contact Name:	
Contact phone (where we can reach you and leave a confidential message):	
If personal email is preferred, provide email address: <i>(NOTE: We will not communicate regarding sensitive personal information via email.)</i>	
Preferred city or town(s) for treatment:	
Please tell us your reason for contacting BPSI for a referral (optional):	

Please tell us why psychoanalytic therapy is being sought at this time (optional):

Any special requests such as preferred gender of therapist, office handicap accessibility, languages spoken by therapist? (optional):

If Health Insurance is to be used for treatment, what is the type of insurance (note that many BPSI clinicians are not part of panels, but offer out-of-network services, where you pay up-front and seek reimbursement from your insurer; some clinicians offer adjusted fee scales):
